

FISCAL NOTE

SB 169 - HB 618

February 16, 2007

SUMMARY OF BILL: Adds abuse of inhalants to DUI offense; requires various forms of education, treatment and investigation involving inhalant abuse.

ESTIMATED FISCAL IMPACT:

Increase State Expenditures – Not Significant

Increase Local Govt. Expenditures – Not Significant

Assumptions:

- Any increase in state expenditures to develop educational programs, promulgate rules, and to train state and local law enforcement personnel to implement the provisions of this bill will be not significant.
- There will be no increase in state expenditures to print new accident report forms since the current supply of accident report forms will be exhausted before the implementation of the provisions of this bill and replacement accident report forms would have been ordered in the absence of this bill.
- The Department of Safety indicates that the current computer system will not require modification and that local governments that electronically report accidents to the Department will not have to modify computer systems either.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James W. White". The signature is fluid and cursive, with the first name "James" written in a larger, more prominent script than the last name "White".

James W. White, Executive Director
